WIRED NEWS FLASH

March 2008

Sharpmark labels – running out the door, some 200 registered users of SL10 and SL4 labels. Don't forget we print what you want also!

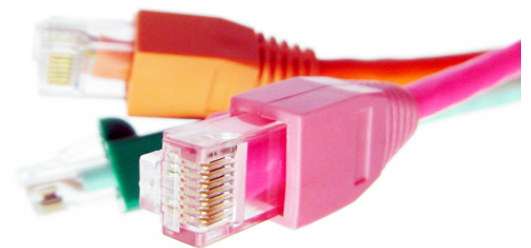

Exico baluns intro to AV range - check out the specs on the Balun section of wired site, view some 5 PDFS. Including the new audio RCA baluns. Too easy!

Wired gets cat 6 lead tested to Draft 8 CAT6 A (10G)

We recently had some leads tested with a Fluke DTX 1800 and the new DTX CH001 remote- PASS with 4.8 DB next . Surprised ? we are not because we know how to make good quality cables. This opens numerous opportunities for our clients to up sell a generic lead NEW ZEALAND MADE, that will comply and perform the same if not better than the system vendor.

Why use our leads

- Support New Zealand made
- Made to exact length requirements
- Labeled at one or both ends using Sharpmark quality labels
- 2 pc plug, short neck, twist right up to the pins, Cat 6 only from Wired
- Coloured boots for ID
- Aqua 10 G colour available also
- Friendly service with real knowledge.

Cable assembly at its best catering for:

Data Communications – CCTV – Multimedia – Control – Industrial – Medical – Military – Aviation
